

# NCAER Webinar

## *Tracking Lives and Livelihoods through the Pandemic* Results from the Delhi Metropolitan Area Study (DMAS)

**Dr Reem Ashraf** is a Consultant with the National Data Innovation Centre (NDIC), at NCAER. Her research interests lie in exploring the nuances of the Capability Approach and Social Choice Theory to measure wellbeing and evidence-based policy research. Her primary areas of research are education, mental and reproductive health, gender, social inequalities and innovative survey methods.

At NDIC, she has been involved in designing and collecting data on contraceptive use, mental health and education for Delhi Metropolitan Area study. For Delhi Coronavirus Telephonic Survey, she was involved in the survey to ascertain risk perception, knowledge and attitudes of people along with the disruptions in education due to the pandemic. As a part of on-going India Human Development Survey, wave 3, she looks at the modules on Schools, Teacher and Education.

She completed her Doctoral degree in Economics of Education in 2018 from Jawaharlal Nehru University, New Delhi.
